

The Raritan Basin Watershed Alliance presents:
“A Practical Approach to Navigating the Stormwater Rules”
Thursday, May 31, 2007
1 to 8 pm

Ramada Inn in Somerset, New Jersey

Does your municipality have questions about how to implement the stormwater rules? The Raritan Basin Watershed Alliance (RBWA) is sponsoring a conference for municipal professionals, municipal volunteers and anyone interested in stormwater management. Speakers from NJDEP and local consulting firms will provide practical information and guidance to help you implement the stormwater rules in your community.

Featured presentations include:

- Components of an Effective Mitigation Plan
- Components of an Effective Education Program
- The NJDEP Non-structural Point System- What is it and how to utilize it in site plan review
- Site Plan Review- Case Studies

The conference is organized to fit attendees' schedules, with information most relevant to municipal officials and professionals presented in the afternoon (12:00-4:15), and information most relevant to municipal volunteers presented in the evening (4:15-8:00). An introduction to the Municipal Stormwater Rules will be given for both the afternoon and the evening sessions. The full agenda and registration information are available at www.raritanbasin.org. A light dinner will be served during the 6:00pm break.

Conference Sponsors Currently Include:

- Canfield Spring @ John's Farm
- Civil Solutions, A Division of ARH
